ABOUT ME

Architect turned Web Developer who has a full-fledged passion in web development. I enjoy building and optimizing high-impact real-world applications using modern web technologies.

EXPERIENCES

Kitchen Doors | Web Developer

June 2019 – Present

- Architected, designed and developed a serverless POS system web application for restaurants using **Angular** framework, with state management library, **RxJs**, **AngularFire**, and **Firebase**.
- Utilized a real-time database to provide a live transaction data, inventories tracking, and shift report optimizing a restaurant's work-flow in a fast-paced environment.

Lokals | Founder and Web Developer

December 2018 – Present

- Designed and developed a social-advertising platform, providing features and services to help small businesses advertise their events, activities, and stories directly to their customers.
- Utilized **MERN stack** using **ReactJS** framework and **NodeJS** with **ExpressJS** library backend API. Query customer data from **MongoDB** database using **Mongoose**.

Zupply | UI/UX Designer

May 2019 – June 2019

- **Designed** a clean and intuitive user interface for a supplies ordering mobile application.
- Created an organized user flow pattern to optimize the user experience while ordering supplies and browsing through a supplier newsfeed.

Villa Lantara | Lead Architect

January 2016 – June 2017

- Responsible for **architectural renovation** and **construction management** of a twelve-room boutique hotel.
- Collaborated with the contractors, led the team to create and design the architectural plan for renovation.

SKILLS

Programming Languages

HTML5, CSS3, JavaScript,
TypeScript, Ruby, Python, C#

Frameworks and Libraries

AngularJS, RxJs, AngularFire,
Firebase, ReactJS, Redux, NodeJS,
ExpressJS, Mongoose, ThreeJS, D3,
SCSS, Rail, PostgreSQL, Git, Heroku

Areas of focus

Front end web development,
MERN stack, UX/UI design,
Investment data analysis
using Python

EDUCATION

Full-Stack Web Development

Bloc Inc Bootcamp

December 2017 - April 2018

Bachelor of Architecture

Chiang Mai University, Thailand

May 2008 - March 2012

AWARDS

DESO Award for Best Architecture Project

Chiang Mai University, Thailand

July 2010

INTERESTS

Startup ideas and prototypes.
Design and architecture,
Architectural 3D visualization.
Soccer, Model Making,
Books and cooking
